

Senior Network Engineer: Cisco - Palo Alto Networks

Sacramento, Ca
Full Time

About Enterprise Networking Solutions, Inc.

Enterprise Networking Solutions, Inc. (ENS-Inc) is an information technology consulting firm located in Sacramento, Ca. We develop and deploy proven, reliable, and scalable enterprise technology solutions. With key expertise in migration/consolidation services, virtualization, cloud integration, system integration services, business continuity, and disaster recovery. ENS-Inc Engineers and Project Managers partner with our clients on a wide range of technology projects. Founded in 1999, the ENS-Inc team is comprised of talented and respected professionals with over 100 certifications and 100 years combined experience working with the public sector in California. In addition to state agencies, ENS-Inc has also provided services to California counties, cities, education, healthcare, and law enforcement, as well as private industry and services to other states.

Job Description

ENS-Inc has an immediate opening for an experienced IT professional that will be a good fit with our Managed Services team. We are looking for an energetic person who has prior experience, enjoys a challenge, and appreciates being surrounded by extraordinary team members. This person will join our Managed Services team as a Network Engineer. This position provides services to our clients around, but not limited to, networking and security technologies, Palo Alto Networks (PAN) Next-Generation Firewalls, and the PAN Management (Panorama) solution. Additional support technologies, VMware technologies (including VMware NSX), and Microsoft technologies is also sometimes requested. The primary responsibilities of this position will be to help our clients in the design, planning, implementation, and support of their existing network and firewall infrastructures as well as potential migrations to new networking infrastructure.

Other areas of expertise that ENS-Inc provides to clients that may be needed in the future or would be provided as an opportunity for the right candidate to grow into are; Networking technologies, Microsoft Azure, Amazon Web Services, VMware virtualization technologies, Microsoft systems technologies, and Hyperconverged technologies.

The position will be located in Sacramento, Ca with primary work hours of Monday through Friday from 8:00am – 5:00pm. While not a primary part of the services we offer, occasional on-call, travel, and afterhours services may be required as part of the position.
