

Senior Systems Engineer: VMware\Linux

Rancho Cordova, Ca
Full Time

About Enterprise Networking Solutions, Inc.

Enterprise Networking Solutions, Inc. (ENS-Inc) is an information technology consulting firm located in Rancho Cordova, Ca. We develop and deploy proven, reliable, and scalable enterprise technology solutions with key expertise in migration/consolidation services, virtualization, cloud integration, system integration services, business continuity, and disaster recovery. ENS-Inc Engineers and Project Managers partner with our clients on a wide range of technology projects. Founded in 1999, the ENS-Inc team is comprised of talented and respected professionals with over 100 certifications and a very long history of experience working with the public sector in California. In addition to state agencies, ENS-Inc has also provided services to California counties, cities, education, healthcare, and law enforcement, as well as private industry and services to other states.

Job Description

ENS-Inc has an immediate opening for an experienced IT professional that will be a good fit with our team. We are looking for an energetic person who has prior consulting experience, enjoys a challenge, and appreciates being surrounded by extraordinary team members. This person will join our Professional Services team as a Senior Systems Engineer. The position provides consulting services to our clients around, but not limited to, VMware technologies, Linux technologies, and both Physical to Virtual (P2V) and Virtual to Virtual (V2V) system migrations. One of the initial primary responsibilities of this position will be to help our clients in the planning, migration, and support of migration projects to move existing systems to a virtualized infrastructure.

Other areas of expertise that ENS-Inc provides to clients that may be needed in the future or would be provided as an opportunity for the right candidate to grow into are; additional VMware technologies such as NSX and Horizon, Microsoft Azure, Amazon Web Services, Microsoft systems technologies, Hyperconverged technologies, and Networking technologies.

The position will be located in Sacramento, Ca with primary work hours of Monday through Friday from 8:00am – 5:00pm. While not a primary part of the services we offer, occasional on-call, travel, and afterhours services may be required as part of the position.

Skills and Abilities

Required

- Advanced experience in implementing, configuring, maintaining and supporting VMware vSphere\ESXi (versions 4.x – 6.x)
- Advanced experience in implementing, configuring, maintaining and supporting various Linux distributions, including Red Hat, CentOS, and SUSE Linux Enterprise Server
- Experience with Physical to Virtual (P2V) and Virtual to Virtual (V2V) migrations to VMware infrastructures
- Experience with the compute, storage, and network technologies that support a VMware virtualized environment
- Extensive prior consulting experience
- Ability to work independently as well as in a team environment
- Ability to work in a fast paced and collaborative environment

- Effective skills in task prioritization and time management
- Ability to quickly and accurately diagnosis technical issues
- Strong presentation and documentation skills

Preferred

- VMware Horizon experience
- VMware NSX experience
- Advanced experience with storage technologies such as NetApp, Pure, and/or EMC
- Experience with Hyperconverged solutions such as Nutanix and/or SimpliVity
- Microsoft Windows Server and Active Directory support experience
- Experience with cloud technologies such as Microsoft Azure and/or AWS
- Project Management experience

Preferred Qualifications

- 7+ years of Systems Engineer experience.
- 5+ years of consulting experience.
- Possess additional certification(s) related to the technologies and skills listed in the Skills and Abilities section of this posting.

Benefits

- Competitive salary
- Benefit options including; medical, dental, vision, and life insurance
- Retirement account options with company sponsored match
